André Sousa

AI and Data Science Undergraduate Student

Profile

Quick learner and task-driven undergraduate student passionate about problem-solving, programming and algorithms. Adaptable, competent and eager to use my knowledge in innovative and exciting opportunities that allow me to further develop my abilities

Education

Socioeconomic Sciences, High School 2018-2021

Colégio Paulo VI

- During this time, I took part in a volunteering project organized by the school and had the opportunity to tutor a younger student and organize social events
- I was able to graduate with a grade of 19.5

AI and Data Science, BSc 2021-2024

University of Porto

- During this time I have been developing a solid foundation in Computer Science, as well as diving deeply into AI and Data Science topics
- I worked on a variety of projects (that are available on my github) about different areas of Informatics, created my own implementations of some well known problems and develop models with real world applications
- I have now finished the first semester of my third year and currently hold a grade of 17.6
- Next semester I'm looking forward to further learning about large scale data and robotics

Last Honors

2021/2022 & 2022/2023 University of Porto	2019-2023 Fundação Belmiro de Azevedo	2021 Colégio Paulo VI
STEAM Merit Scholarship x2	Fundação Belmiro de Azevedo Scholarship x5	High School Honor Student
I was awarded this scholarship for my <u>overachieving results</u> during my first two years at university.	I was given this scholarship for my <u>phenomenal academic grades</u> for the last <u>5 years</u>	I received this honor as a recognition of my <u>hard-work and great results</u> during my high school years.

Relevant Experiences

First Cambridge Exam 2021	Erasmus+ 2018/2019	Student Exchange Program 2018
I scored 184 in the FCE, which means I qualify for <u>C1 level</u> on the CEFR scale. I am now able to comfortably communicate in English.	I got to meet international students in Budapest, Hungary and got to exchange <u>experiences and future prospects</u> .	My family hosted a French student and I stayed at his house a few months later. I got to develop <u>adaptability and communication skills</u> .
